

Clean and safe
drinking water for all

**Filter
your
water!**

Seccua MK7

Seccua MK7 is a water filtration system for easy installation under the sink. It filters pathogens and pollutants from drinking water and provides a pleasant taste and smell.

Reduces bacteria and germs up to 99.9 %

Reduces chlorine and chloramines

Reduces microplastics up to 99 % and plasticizers

Reduces PFOA/PFOS

Reduces lead up to 96 % and heavy metals

Reduces odor and improves water taste

Reduces rust and sediments

Quick and easy installation under the sink

Reduces pesticides

Quick and easy filter cartridge replacement

Reduces hormones and pharmaceutical residues

Waste less plastic, save money, and avoid bulky bottles

Seccua MK7 Technical data

Dimensions and weight (complete filter)

Height	29 cm / 11.4 in
Width	7 cm / 2.8 in
Depth	7 cm / 2.8 in
Weight (dry)	700 g / 1.5 lb

Filtration capacity

Filtration	Three-stage filter (pre-filter, microfiltration membrane, activated carbon)
Rated flow	Up to 7 l/min / 1.85 gallons
Filtering rate	0.3 µm
Capacity	Up to 5,000 liters / up to 1,321 gallons
Filter replacement	Every 6 months or after 5,000 liters (1,321 gallons) filtration volume (whichever comes first).

Operating conditions

Operating pressure	0.5-6.8 bar / 10-100 psi
Operating temperature	5-65 °C / 41-149 °F

The filter system is designed for treated drinking water (city water).

Retention

Bacteria	>99.9 %
Microplastics	>99 %
Lead	>96 % (tested according to NSF 53)
Chlorine	Tested according to NSF 42
Hormones e.g. Estrogens	Tested according to NSF 401
Pharmaceutical residues e.g. Ibuprofen, Naproxen	Tested according to NSF 401
Plasticizers e.g. Bisphenol A, Nonylphenol	Tested according to NSF 401

Reduces rust and pesticides as well as unpleasant taste and odor.

Approvals and standards

Tested according to	NSF 42, 53, 372, 401
----------------------------	----------------------

The products including packaging comply with REACH Regulation 1907/2006/EC. The products comply with the RoHS Directive 2011/65 and 2015/863 on the restriction of the use of certain hazardous substances. The materials in contact with drinking water either meet the requirements of the current positive list of the German Environmental Agency (UBS) or comply with the requirements of the UBA assessment basis KTW BWGL.

Connections and mounting

Connections male	3/8" (in and out)
Mounting	Wall-mounted using screws or self-adhesive bracket, connection hoses, shut-off valve, and mounting material all included
